Your FREE Gift...

GET IT ON YOUR T-SHIRT!

This week's exciting skateboarding free gift is an iron-on transfer, and all you need is a t-shirt to get it on your chest. Get your mum to iron it on a plain t-shirt for you and, like the Kicktail Kid, you'll soon be the "Wild Wheels" of your skatepark!

FOLLOW THESE IRON-ON INSTRUCTIONS CAREFULLY

APPLICATION INSTRUCTIONS

1) Set iron to cotton temperature (150°C) and allow iron to heat for 15 minutes.
2) Before application check that the fabric is clean and grease free and that it will withstand the iron temperature. A pressing cloth (i.e. linen handkerchief) should be used as protection when applying an IRON-ON to nylon or synthetic fabrics.
3) Place a complete newspaper folded in half under the area of the fabric on which the IRON-ON is to be applied.
4) Iron the fabric application area for approximately 15 seconds to remove all creases and unevenness.
5) Place IRON-ON face down on the fabric, (DO NOT allow any movement between IRON-ON and fabric during application) and iron backing paper, using firm pressure over ALL parts of the design for 1 minute. If using a pressing cloth the ironing time should be increased by 30 seconds.
6) Allow IRON-ON to cool on the fabric before carefully removing the backing paper. Retain the backing paper and repeat steps 5 and 6 if necessary.

WASHING

The IRON-ON is colour fast in soap or detergent. It can be boiled, spun dried as long as the application instructions have been followed. Do not however, wring the fabric.

IRONING

Do not iron directly on to the IRON-ON—use a pressing cloth or iron the reverse side of the fabric.
